1 Discussion 1

1.1 Read the online document. If we want to set the output file name as data and time, how do we set filename in the code?

1.1.1 Origin

```
camera.capture_continuous('image{counter:02d}.jpg')
```

1.1.2 New

```
camera.capture_continuous('image{timestamp:%Y%m%d_%H%M}.jpg')
```
